

FARFARAWAY

"Constellations Strange" is the Debut Album from FarFarAway. (Release date: Aug 14, 2026)

FARFARAWAY - Twin Cities High-Energy Rock

ABOUT:

Formed in St. Paul, Minnesota, in 2023, FarFarAway was born from a shared passion for writing original, high-impact music. After honing our sound, we hit the stage for the first time in 2024. In just our first year, we brought our high-energy, action-packed live performance to 21 stages across the Twin Cities. We aren't your typical Minnesota band; we are a rock outfit that packs a punch, blending the grit of '80s thrash with the visceral hooks of modern emo.

THE SOUND:

Our music is a nostalgic, high-voltage throwback to an era when mixtapes and legendary skate and snowboard videos were the ultimate soundtrack to discovering new artists. We bridge the gap between heavy, technical precision and raw, emotional energy.

TARGET AUDIENCE:

Our sound resonates deeply with listeners born in the '70s and '80s who cut their teeth on the alternative scenes of the '90s and 2000s.

FarFarAway is:

Eric (Vocals), **Timmy G** (Bass/Vocals), **Jason** aka "Moose" (Lead Guitar/Vocals), **Tom** (Rhythm Guitar/Vocals), and **Marty** (Drums).

We have come together with our own influences and experiences to make our debut album "Constellations Strange". We hope it finds a place near and dear to those who look back favorably at a simpler time in rock and roll like we do.

Album release show: Sep. 11, 2026 | Pillar Forum Cafe | Special guest: Powerdam, Rad Owl | All ages | Cover: Advance \$15 Day of Show \$17 | Door 6:30p | Music 7p | Location: 2300 Central Ave NE, Minneapolis, MN 55418
